

19 January 1954

Lakehead Amateur Radio Club

The last regular meeting of the L.A.R.C. was held in the Club Rooms Donald Street, Tuesday evening January 19th at 8:00 pm.

On a motion by J. C. (Jim) Bailey - VE3DGZ and seconded by Frank Start - VE3AJ, the minutes of the previous meeting were adopted as read.

Herman Dalman - VE3DJD suggested that to create activity, we might have a talk on a technical subject. It was also suggested by Mr. Dalman that in advance of any A.R.R.L. contest, a talk explaining the finer points of such contests be given by one of the older members.

Frank Start - VE3AJ made the suggestion the Mobile equipment be brought down to the Club Rooms.

J. C. (Jim) Bailey - VE3DGZ generously offered to bring down his Grid Dip Meter for the club to use on Night Work meetings.

The general membership was in accordance with the idea that we build a V.F.O. for use at the Club Station.

Herman Dalman - VE3DJD made the motion to adjourn the meeting, and this motion was seconded by Al Fulton - VE3AKI.

Signed:

President

Peter Boyle - VE3DPJ  
Secretary-Treasurer
